

Enhance your Environment

## Introduction

---

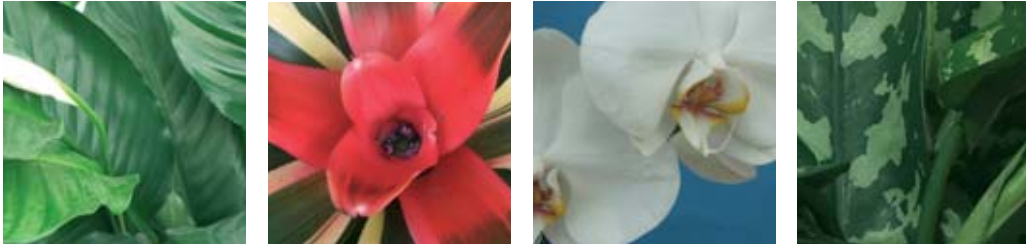

Superplants is a unique organisation providing the widest range of landscaping, planting and seasonal services for corporate clients. The company aims to provide a first class 'value for money' service – using the finest planting materials – ensuring both premium quality and creative results.

## Background

---

The company was established in 1996 by Mike Conlin and Phil Taylor, with a view towards providing clients with an efficient, personalised and professional service. The organisation has grown considerably over the years and now installation and maintenance teams manage projects in London, the Midlands and across the South of the country – ensuring a 'seamless' operation.

### Interior plants are good for your business

Research from both NASA and independent academic studies clearly shows that the use of interior planting within the workplace will improve the quality of the air. Planting also reduces stress and absenteeism, improves productivity, helps reduce the causes of sick building syndrome, enhances the appearance of the workplace, and generally improves staff moral, thus creating a superior and more enjoyable place in which to work.

Likewise, people viewing exterior planting through windows also work better and have a superior sense of well-being.

*"The more plants you have, the healthier the environment is going to be."*

Dr. B.C. Wolverton, NASA scientist

### Interior Landscaping at Work – Tropical plants

We specialise in the installation of living interior planting schemes with full aftercare. We will survey your premises and provide a free no-obligation design recommendation and competitive written quotation.

These live planting schemes may be purchased outright or supplied on a rental basis. Both schemes come with an excellent full service aftercare programme.

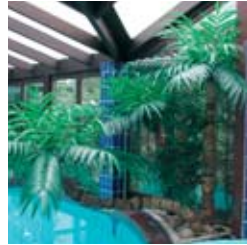

### Quality Interior Aftercare Service – London, Midlands and across the South

Once your planting scheme is installed our skilled technicians will visit on a regular basis to maintain the displays.

When necessary, this service includes free replacement plants, within the agreed fee, to ensure the highest standards are maintained year in, year out.

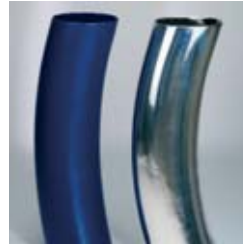

### Artificial Planting Schemes – UK and Europe

Not all environments are suitable for living plants. Access may be difficult, the light levels may be too low or other environmental conditions might adversely affect live planting.

In these situations we would recommend an alternative 'artificial' scheme – often using natural stem trunks for both trees and palms. As the photographs demonstrate, the effect we achieve is most realistic.

We also offer plants on a direct delivery service, nationwide.

### Containers – The ultimate selection

At Superplants we source and supply a wide range of containers. We are able to specify the design to suit your requirements – complimenting your corporate image. These come in a wide range of shapes, sizes, materials, colours and finishes. The above illustrate just a few of the stunning designs now available.

Enhance your Environment

### Exterior Landscaping – Specimen trees and palms

We provide exterior landscaping services for small to medium sized projects, often working with architects and designers.

We can design and plant your exterior landscaping scheme, incorporating watering systems if required, to ensure ease of ongoing maintenance.

### Exterior Maintenance – With extra flair

Our exterior maintenance service covers a wide range of landscaping from regular exterior grounds maintenance throughout the year, to planting containers and window boxes.

### Short Term Hire – Events, exhibitions and shows – Nationwide

We specialise in the design and installation of creative planting schemes for events and exhibitions. We are the main contractors for a number of shows and work closely with event, exhibition and party organisers – installing impressive schemes throughout Europe.

### Short Term Hire – Planting schemes for immediate impact

These planting schemes were created for shows and events, and are normally constructed for just a few days.

### Corporate flowers – Stylish designs

Fresh flowers can be provided on a regular basis. Our glorious flowers are also available for special events.

We can also despatch flowers throughout the UK and worldwide – just call 0800 7812155 FREE.

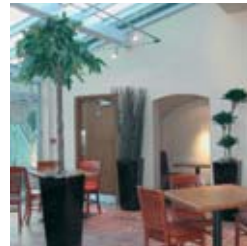

### Christmas and Festive Displays – Extra sparkle

We supply and install interior and exterior Christmas trees. Exterior trees range in size up to 12 metres (40 feet) tall. The interior trees up to 6.0 metres (20 feet) tall. All are normally supplied on a rental basis and are fully decorated as part of our service.

Other sparkling festive displays are available for the Christmas period.
